

PRANATI ARUN

+91 7045017168 — pranati.arun@gmail.com — Thane, Maharashtra — linkedin.com/in/pranati-arun

Summary

IT undergraduate with hands-on experience across full-stack web development (Python/Flask, React, PHP) and current research experience applying machine learning to computer vision problems. Comfortable working across the stack from database to UI, with a growing focus on applied ML.

Education

Fr. C. Rodrigues Institute of Technology, Vashi	<i>Aug 2023 – June 2027 (expected)</i>
<i>B.Tech in Information Technology</i>	CGPA: 9.5 / 10
Arya Gurukul International College, Airoli	<i>May 2023</i>
<i>Class XII (HSC)</i>	75.83%
Hiranandani Foundation School, Thane	<i>July 2021</i>
<i>Class X (ICSE)</i>	97%

Technical Skills

- **Languages:** Python, JavaScript, PHP, SQL; also C, C++, Java (academic coursework)
- **Frontend:** React, HTML5, CSS3, Tailwind CSS
- **Backend:** Flask, REST APIs, PHP; Docker for containerization
- **Databases:** MongoDB, MySQL
- **Cloud & Tools:** AWS (basics), GCP (basics), Firebase Hosting, Git, GitHub, GitHub Actions (basics), VS Code

Work Experience

Project Intern – Tata Institute of Fundamental Research (TIFR) *June 2026 – Present*

- Researching an ML-based inspection pipeline for the CMS Live Module, focused on automated wirebond inspection using YOLO-based object detection for defect identification.
- Reviewing existing detection architectures and datasets to design a suitable model pipeline ahead of implementation.

Software Engineer Intern – InfinityPool Finnotech *June 2025 – April 2026*

- Developed a backtesting framework in Python and Flask to evaluate equity trading strategies against historical data, with a React-based dashboard for visualizing performance.
- Built an Options Strategy Engine to generate, optimize, and backtest dynamic options strategies; containerized the application with Docker for consistent deployment.

Web Development Intern (In-house) – Fr. CRIT, Vashi *Dec 2024 – July 2025*

- Built the Information Management System (IMS) for college faculty and students using PHP and SQL, centralizing data management and streamlining workflow between departments.
- Designed and implemented secure web interfaces for data upload and multi-level approval workflows.
- Developed an Event Management & Club Recruitment platform to streamline fest coordination and recruitment; later migrated part of the stack to React and SQL.

Projects

- **Options Strategy Engine** – Intelligent system for automated options strategy generation, optimization, and backtesting; containerized with Docker.
- **Event Management & Club Recruitment System** – Internal web platform to streamline fest coordination and club recruitment processes.
- **Information Management System (IMS)** – Centralized system for faculty-student data management, improving workflow efficiency.

Other Experience

- **Secretary, Institute Innovation Council (IIC), Fr. CRIT** (*June 2025 – June 2026*) – Support campus innovation and entrepreneurship through idea competitions, mentorship, and hackathons.
- **E-Cell (Entrepreneurship Cell), Fr. CRIT** (*Aug 2024 – June 2026*) – Organize project competitions, outreach programmes, and innovation workshops.

Awards & Achievements

- 3rd Place, National Level Competition *TechSparks* – Event Management and Club Recruitment System
- Participant, Smart India Hackathon 2024 and 2025
